- Paul

    - Paul is out today, back on Wednesday

- Arthur

    - Still working on IAR Compiler tickets

- Backlog

    - We were able to address the last 8 tickets in the backlog to determine what is still relevant and what we can close

    - The team has now completed review of the total backlog

    - Most of the tickets left in both SC Approved and the Backlog are low priority with a few mediums, so we're in good shape overall
