TFC Steering Committee Meeting Minutes

(Send to: tf-openci-triage@lists.trustedfirmware.org)

October 29, 2024

Attendees: Karen, Joanna, Anton, Sufyan, Ben, Paul, Bence

NOTE - The Linaro organization is scheduled to have it's yearly Employee Meeting from Nov 4-8 (includes travelling time). Based on that, our next meeting on Nov 5 will be cancelled and we'll resume our regular schedule the following week.

Minutes

- Infrastructure (FVPs in Tux)

    o TF-A

        ▪ No issues to report this week that Joanna is aware of

        ▪ Joanna to follow up on [TFC-547] TF-A LTS: New LTS branch creation automation - Jira and update comments on how to move forward

    o TF-M

        ▪ Ticket has already been opened in Jira [TFC-671] Open CI seems to be offline in all nodes for TF-M tf-m-static - Jira

            • Ben has confirmed it's an NFS issue and is currently investigating

            • Joanna mentioned they're not seeing this issue on the TF-A at the moment, and will notify Linaro if the CI goes offline

        ▪ Looking at the release going out the end of this week

    o MBedTLS

        ▪ The Flexnet license has expired

        ▪ Currently focused on getting the UBL changes merged today or tomorrow

        ▪ Will confirm merge has been completed at our next meeting

        ▪ [TFC-666] Add Graviton executors to MbedTLS Jenkins instance - Jira

            • Kelley updated the ticket

            • Bence to confirm that everything is ok on his side based on the resolution

        ▪ Ben

            • Nothing to discuss/report this week

- Paul
  - Paul's current focus is on the following tickets this week
    - [TFC-665] The Staging CI fails for coverage runs due to missing TUXSUITE_TOKEN - Jira
      - Now in Upstream Review (Major Priority)
    - [TFC-660] Evaluate Feasibility of Publishing Binaries to Private Storage for Model Containers - Jira (High Priority)
      - We're waiting to hear back from Harrison
    - [TFC-663] TF-M: Musca B1 Platform tests failing - Jira
      - Has since been Resolved
    - UBL License Renewal
      - Licenses expire on Oct 30 (Wednesday)
      - As per our original plan, we aren't going to renew them (having fully switched to UBL)
      - Next step is to triage the current state of FlexNet usage, if any.
      - [TFC-645] Investigate remaining FlexNet usage in OpenCI - Jira (Critical Priority)
      - [TFC-602] Decommission FlexNet license usage in OpenCI - Jira (Major Priority)
      - TFC-645: Investigate remaining FlexNet usage in OpenCIOpen
